A.4.3 **SIGHTERS**

A.4.3.1 All sighting targets provided may only be used before firing a shot on the first competition target.

A.5 EQUIPMENT

A.5.1 **Ground Cloths and Shooting Mats.** If Shooting Mats or Ground cloths are not provided by the organizing committee, *ISSF 7.4.7.12.4* then the use of private shooting mats and/ or ground cloths is permitted provided that they comply with *ISSF Rule 6.3.12.2.2*.

A.5.2 **CLOTHING**

A.5.2.1 The ISSF dress regulations shall not be rigidly enforced for State and National Championships provided the competitor gains no unfair advantage, this exemption does not apply to competitors that are participating in elimination for international events such as Olympic Games, World Championships, World Cups, Commonwealth Games, Commonwealth Shooting Federation and Regional Championships.

A.5.2.2 The ISSF Equipment Control Certification Card issued to a competitor as per *ISSF Rule 7.4.1.1* is proof of compliance in TRA competitions where clothing and equipment inspections is required to be done.

A.5.2.3 An Australian version of the Equipment Control Certification card as per *ISSF Rule 7.4.1.1* is endorsed for use as per Rule A.5.2.2 provided it was issued by person/s approved by TRA Technical Committee.

A.5.3 **BENCHREST TABLE**

The bench is a rigidly constructed table with a recommended standard height of 850mm that can vary by ± 100 mm to allow a shooter of approximately average height to sit comfortably on a chair or stool. The tabletop should be of adequate size and shape to accommodate a shooter and their equipment.

A.5.4 **BENCHREST RIFLES**

TRA approved benchrest rifles will:

A.5.4.1 Be a rimfire rifle, chambered for the .22 long rifle cartridge. A magazine may be used, provided that the reloading of the cartridge into the breach is by manually pulling back and replacing the bolt.

A.5.4.2 Have a barrel with a minimum length of 460mm measured from the face of the bolt to the apparent muzzle and cannot be fluted for Class 1 or 2 rifles.

A.5.4.3 **CLASS 1 – BENCHREST SPORTER RIFLE.**

TRA Class 1 Benchrest Rifle is any rifle chambered for .22 rimfire long rifle cartridge having a safe manually and mechanically operated firing mechanism which does not include the use of pressure fluid, gas or remote control.

The weight of the rifle shall not exceed 3.5kg inclusive of sight and unloaded magazine (if applicable).

The width of the stock shall not exceed 60mm at any point and the fore-end shall clearly have a convex shape.

Nothing may be fastened to the barrel except sights and sight bases.

Any telescopic sight shall be limited to a maximum of 12 power magnification. Variable magnification telescopic sights to be set at or less than 12 power and taped by the Range Officer or equipment control.

A.5.4.4 **CLASS 2 – RESTRICTED BENCHREST TARGET RIFLE.**

TRA Class 2 Benchrest Rifle is any rifle chambered for .22 rimfire long rifle cartridge and having a safe manually operated firing mechanism, which does not include the use of pressure fluid, gas or remote control.

The weight of the rifle shall not exceed 4.5kg inclusive of sight and unloaded magazine (if applicable).

Use of an electronic trigger is permitted, however, all accessories associated with such trigger i.e. batteries etc must be integrated as part of the rifle and included in the total rifle weight.

The magnification of a telescopic sight shall be unrestricted.

Barrel tuning devices are allowed.

The width of the stock shall not exceed 75mm at any point, and shall have a flat or convex fore-end. Any part of the stock butt must be no wider than 30mm when in contact with the rear rest bag.

A.5.4.5 **CLASS 3 – OPEN BENCHREST TARGET RIFLE.**

TRA Class 3 Benchrest Rifle is same specifications as for Class 2 Benchrest Rifle, but the weight of the rifle shall not exceed 8kg inclusive of sight and unloaded magazine (if applicable).

A.5.5 **BENCHREST BAG**

A.5.5.1 **Rear Rest Bag**

The rear rest bag shall be a bag or combination of bags, without additions or container of dissimilar material from the bag. The fingers shall easily flex the cover of such bag or bags. The contents of which shall be dry, finely divided non-metallic substance such as, but not limited to sand, gravel, or grain without additives, packed loosely enough so that each bag shall be easily and permanently deformable by pressure of the fingers. The rear rest cannot be contained in any manner.

A vertical spacer shall be allowed between the rear bag/s and the bench. The spacers cannot be fixed in any way to the bag/s or the bench and shall not incorporate adjustments for windage and/or elevation.

A.5.5.2 **Front Rest and Bag**

The front rest may be a block or pedestal, which may incorporate adjustments for elevation and windage but shall not have any guiding

means that would work with any addition, contour or dimension on the rifle to help return the rifle to the firing position.

Any front rest may be used in conjunction with a bag or similar soft covering on which to rest the fore-end of the rifle. The section of the fore-end contained by the rest bag shall be full width of the rifle stock and must be such that the rifle can be easily removed in the vertical direction without any front bag adjustment.

The cover and filling of the front bag shall meet the same requirements specified for rear rest bags.

A.5.6 **AMMUNITION**

A.5.6.1 Any commercially available, factory loaded, standard velocity .22 long rifle ammunition with a soft lead projectile may be used. This ammunition must be original and unaltered. Jacketed projectiles are not to be used.
